

Request for Proposals

Website Design & Content Development Services

Village of Ortonville, MI

www.ortonvillevillage.com

The Village of Ortonville is seeking a single vendor to redesign the Village's website. The goal of this project is to redevelop the Village's website with a new look, improved functionality and security, and a more manageable Content Management System for Village staff to update and manipulate. Due to the large amount of content that already exists on the site, the current content needs to be included, but the Village is seeking more efficient navigation tools and additional elements that will help serve our many sectors of constituents.

Qualified applicants will have proven expertise in responsive website design/mobile website design and the ability to support Village staff in its ongoing management. Price will not be the only factor in choosing a contractor, as an understanding of the scope of work and the Village's needs will also weigh into selection.

Point of Contact: Ryan Madis, Village Manager

Tel. (248) 627-4976

Email villagemanager@ortonvillevillage.com

Contact Ryan Madis for the detailed request for proposals. The deadline for submitting Statements of Proposal no later than 5:00 p.m. on Wednesday, March 22, 2023.
